

NEWS RELEASE

BOROUGH OF SOUTH GREENSBURG

Borough Council has directed that I serve as the primary contact and provide this statement on behalf of the Borough:

The South Greensburg Borough Council is aware of the criminal case brought by the Commonwealth of Pennsylvania against the Chief of the South Greensburg Volunteer Fire Department. The Fire Department is an independent entity that operates separate and apart from the Borough and the only financial support provided by the Borough is payment of insurance premiums for equipment and personnel and the payment of invoices from a budget line item as approved by the Borough at public voting meetings. No taxpayer funds are in jeopardy as a result of the alleged conduct of the Chief of the Fire Department.

The Borough has received word from the South Greensburg Fire Department that it is under new management and is presently fully operational and able to provide the same level of service to the South Greensburg Community.
